Job Ticket
Installing "GWG_v1.1_AD" Custom Panels
14 October 2008

In order to activate the two GWG_v1.1_AD custom panels for Adobe Acrobat, please follow the procedure:

Remove older custom panel files if you are using a previous version of the ticket.

Uncompress the GWG_v1.1_AD_CustomPanels.zip file.

If you are using **Adobe Creative Suite** applications, please copy the two files
    GWG_v1.1_AD_R.txt
    GWG_v1.1_AD_O.txt
in the following location:

on **Mac OS X**
`{Root}/Library/Application Support/Adobe/XMP/Custom File Info Panels`
or
`{Home Directory}/Library/Application Support/Adobe/XMP/Custom File Info Panels`

on **Windows**
`\Program Files\Common Files\Adobe\XMP\Custom File Info Panels`
or
`\Documents and Settings\<user>\Application Data\Adobe\XMP\Custom File Info Panels`

Note: you may have to activate the option on Windows to view hidden files to access this folder.

The custom panels are now immediately accessible as a user interface from the menu `File > Document Properties…` window. You then need to click on the "Additional Metadata…" button.

If you are using **Adobe Acrobat 6.0**, copy the files here:

on **Mac OS X**
`{Root Volume}/Library/Application Support/Adobe/Custom File Info Panels`
or
`{Home Directory}/Library/Preferences/Adobe/Custom File Info Panels`

on **Windows**
`\Program Files\Common Files\Adobe\Custom File Info Panels`
or
`\Documents and Settings\<user>\Application Data\Adobe\Custom File Info Panels`

The custom panels are now immediately accessible as a user interface from the menu `Advanced > Additional Metadata…`
