In this field it is very important to select the proper colour conversion settings yourself:

- please check with your output provider which ICC profile is appropriate, or select the ICC profile that was used for converting images to CMYK in PhotoShop or InDesign.
- For MagazineAds\_1v4, we recommend you to use the ISOcoated\_v2\_300\_eci ICC profile
- Colours in your document will change if:
- objects in RGB colour space with or without ICC profiles are used in the document
- CMYK objects with different ICC profiles are placed in the document

The GWG\_2400\_1v4 Transparency Flattening settings are set under Edit>Transparency Flattening Presets>New... as below:
